### PRODUCT OF THE MONTH

### Ed Jaunzemis; President /CEO

As we approach the Fall Season; I would like to first take this time to thank all our customers for their continued support in purchasing Moderustic Inc Fire Glass; which is officially patented (#'s 7,976,360 B2, & 8,419,505 B2, (With the Third patent on its way...more patent news to come.) We have proven to be the leaders of Product Innovation in the Industry! As our business continues to grow at an accelerated pace Moderustic Inc continues to excel in the invention of more innovative products. This season we are ready to showcase our newest, most exciting product called The "tubED", and the "Pyro-Board". The original "tubED" had 80 flames, now 192 flames dance to you pleasure! The "Pyro-Board" has 2,116 flames driven by a 5 speaker system! INSANE! These exciting new Products will make their debut at the [Palm Springs Village Art Festival](#). For more information visit our website at [www.Moderustic.com](http://www.Moderustic.com)

## Black Magic Sand "For Blue Flames"

Moderustic Inc "Black Magic" Sand Creates a Blue Flame effect. Very unique and innovative for the discerning customer. Makes a spectacular presentation in your fire feature. Great as a conversation piece! We do not recommend covering Black Magic with FireGlass. However, you may sprinkle a few Toppers or place some FireBalls, to further the style and color. For Indoor use only... To determine how much Black Magic you need or If you need a new burner, or a fresh coat of thermal paint you may also visit the Moderustic Inc website at [www.ShopModerustic.com](http://www.ShopModerustic.com) Once you have determined your 1" fill, Clean your fireplace off all existing media, so that your have a completely empty fire feature. Lay a bed of filler down (typically playground sand from your local home-store works fine) anywhere from 1-3 inches high. Place your burner holes facing down, atop of the bed of sand. Then pour your 1" inch layer of Black Magic over the burner.

## DOMINIC'S FIRE AND WATER FEATURE

Photo: Private Resident Dominic's Fire and Water Feature

The series of photos shown above are product development stages of a custom Fire, Water, and Light Feature designed by our customer "[Dominic Backowski](#)." He had a large fire pit and wanted a "One of a Kind" feature for his back patio. Moderustic Inc took his pencil to paper design and created this beautiful "State of the Art" feature. There is no other Corporation, that works directly with their customers needs to invent, design, construct until the final product is complete! Moderustic Inc continues to be a "State of the Art" corporation with an innovative approach to product invention! Call or visit our website at [www.Moderustic.com](http://www.Moderustic.com) for information on custom products.
